Maria Nargiello of Evonik Corporation

Maria Nargiello graduated with a BS degree from Upsala College in NJ, with a double major in Chemistry and Biology and a minor in Environmental Science. She has worked in the Applied Technology and Technical Service department in NJ and OH at Evonik Corporation for 30+ years. She has held various technical management positions, responsible for product lines including AEROSIL® fumed silica, AEROXIDE® fumed Oxides, AERODISP® metal oxide dispersions, ACEMATT® flattening agents, SIPERNAT® precipitated silica, and IDISIL® colloidal silica dispersions for various industries. Currently, she is the Technical Director for the Standard Silica and Coatings segments serving Silicone, Resins and Ink industry areas. Maria coordinates applied research and technical service for these industries in NAFTA.

Mechanics of Matting a Coating

Evonik manufactures a variety of synthetic silica based matting agents for gloss reduction in coatings with varying particle size, treatment, and morphology all under the ACEMATT® trade name. These matting agents are based on either precipitated or fumed silica and are either untreated, wax treated or oligomeric treated. This presentation will discuss how silica matting agents work, as well as the factors that influence gloss reduction in coatings. Also discussed are guidelines as to what matting agents are recommended for various coatings types

PRESIDENTS MESSAGE

Kenneth Cutler
PSCT President
2016-2017

Dear PSCT Members,

I would like to thank Dwight Weldon of Weldon Laboratories, Inc. for presenting at the March meeting. Dwight always delivers a riveting presentation and last meeting was no exception. I think what I like best is that Dwight's work almost always lends itself well to being told as a story with a beginning, middle, and ending. After listening to the story, there is something very satisfying about being able to understand why the coating failed. As a reminder to all members, the PSCT board is always looking for our next great presenter with an interesting topic. Although we don't have any more open spots this year, consider volunteering for next year.

The deadline for the Hiram P. Ball Memorial Scholarship and STEM grant has passed. We had a total of 6 appli-

cants. The Scholarship Committee is now hard at work reviewing all the applications. Awards will be announced in the May newsletter.

Our next social event will be a Pirates baseball game on April 24th. This will be a joint function with the Joint Chemical Group. As a reminder, your tickets need to be paid for by April 10th.

It's my pleasure to announce the PSCT slate of Candidates for the 2017-2018 year. Chris Gehly (Matthews International) will be running for Vice-President. Cheryl Roberts (KTA-Tator) will be running for Secretary. Dan Bickford (PPG) will be running for Treasurer. Barbara Anderson (Troy) will be running for Director-at-Large. Jim Wasik will be running for ACA Society Liaison, which is a 2-year term. Continuing to serve will be Mark DePasquale (PPG) as President and Ken Cutler (Kop-Coat) as Past-President. Many thanks to these people for volunteering their services to continue making the PSCT a great organization!

Our next meeting on April 10th and will be at the Walnut Grill in Wexford. The speaker, Maria Nargiello of Evonik, will present at 6 pm with a talk entitled "Mechanics of Matting a Coating" and will be followed by dinner. I hope to see all of you there!

PAINT POT

Brij Sharma was picked for March's Paint Pot, but was not in attendance. The Pot will rollover to \$50 for this month's drawing. Remember, in order to be eligible to win, you must be an active member and must be present at the meeting when drawn.

CALL FOR SPEAKERS

We are finished with speakers this year, but if you would like to present or know someone who would like to present next year, please have them contact Mark DePasquale at depasquale@ppg.com.

MAY OUTING

Please join us on Monday, April 24th to watch the Pittsburgh Pirates take on the Chicago Cubs. The cost of admission is \$70 and includes food and beer before the game. The deadline for sign-up is Monday, April 10th. Act fast as there is a limit of 47 attendees. You can pay online at paintsociety.org or sign-up by contacting Tim Hurley at thurley@ppg.com

SCHOLARSHIP

The deadline for applications has passed. We have a total of six applicants this year for the Hiram P. Ball Memorial Scholarship. A total of \$6,500 will be split among the awardees, and the STEM grant award is an additional \$500 grant.

WEBSITE

Please visit <http://paintsociety.org> and view the website, including the current newsletter, President's message, upcoming events and more. Don't forget you can RSVP and pay for the upcoming dinner meeting and events from the home page of the website. You can also renew your membership directly online, it's never too late to join.

ACA MEMBERSHIP

Coatings Science & Technology Professionals

ACA also offers a special membership category for Coatings Science & Technology Professionals, but these benefits are available to employees of Corporate Member companies at no additional cost.

Coatings Science & Technology Professional membership provides an opportunity for individuals working in the industry to benefit from member pricing for educational and training programs, and to have access to science and technology publications and events. This category of membership is offered for industry consultants, employees of non-member companies, and those working in academia.

Benefits of Coatings Science & Technology Professional membership include:

- Subscription to print and digital versions of **CoatingsTech** magazine
- Subscription to **Coatings Today** bi-monthly e-newsletter
- Online access to the **Journal of Coatings Technology and Research**

- Discount on registration fees for conferences and webinars
- Discount on publication orders
- Web access to "members only" technical information

To join ACA as a Coatings Science & Technology Professional member or to renew your existing membership, please click the link below.

Coatings Science & Technology Professional membership is also available free of charge to university-level coatings technology students. Student membership includes complimentary subscriptions to **CoatingsTech** magazine, **Coatings Today**, and the **Journal of Coatings Technology and Research**. Click the link below to apply for student membership.

All applications will be reviewed for eligibility. Applicants must allow three business days for processing before utilizing member benefits.
